Research Strategies: ADA & Universal Design

INDES440 - Design Research

By Joy Kim, Librarian

Teaching Demo Prompt

You will present to a 300/400 level Interior Design Class. The students are tasked with creating a design plan for a Coffee House/Social Justice Center on the BC campus. The instructor would like you to help the students research the Americans with Disabilities Act and find scholarly research about design for the varied ability of users with respect to the ADA and Universal Design.

Program Outcomes

- Recognize the implications of globalization on design practices and demonstrate an understanding of how social, political and physical influences shape the design of built environments
- Demonstrate understanding of laws, codes, standards, and guidelines that impact the design of interior spaces and protect the health, welfare and safety of the public, including fire and life safety, accessibility guidelines, and industry-specific regulations in the design of interior spaces

Lesson Objectives

1. Review Boolean Operators
2. Identify popular versus scholarly/peer-reviewed sources and evaluate their strengths and limitations
3. Apply strategic keywords to research scholarly sources about ADA and Universal Design
