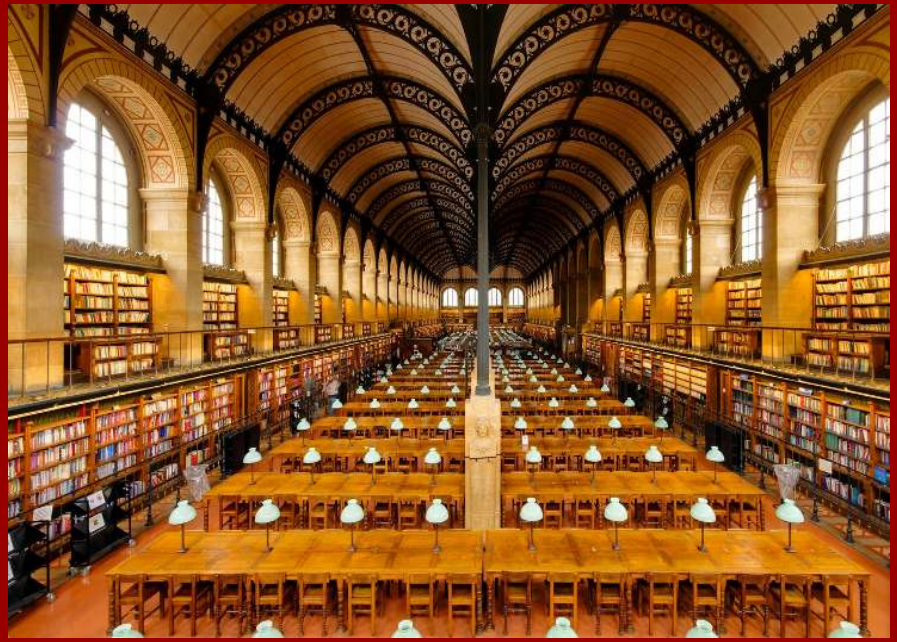
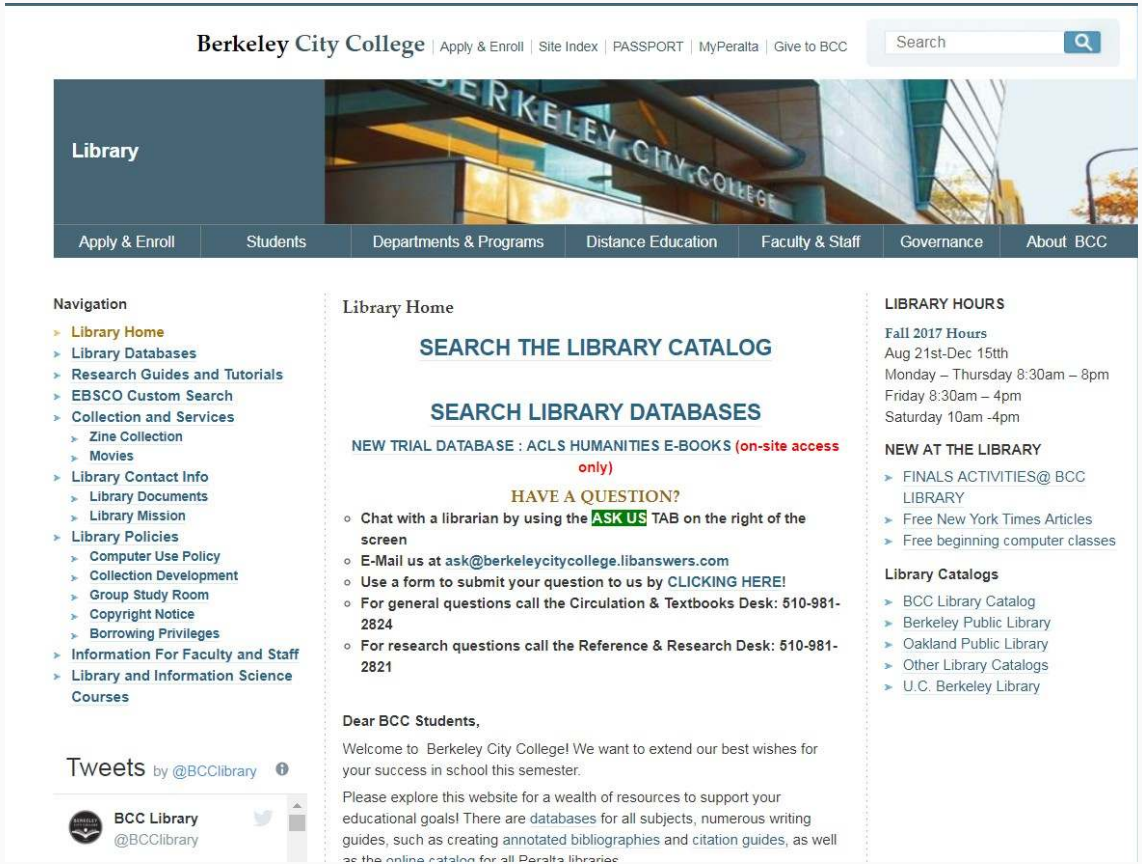
BURGER KING



Berkeley Library Website

Question 1:
What is the difference between a **Catalog** and **Database?**

Question 2:
How do I know which database to use?



What are keywords?

Keywords are short.

Keywords are nouns and main ideas.

Keywords are synonyms.

Keywords can change.

Broad--->Narrow--->Related (Keywords)

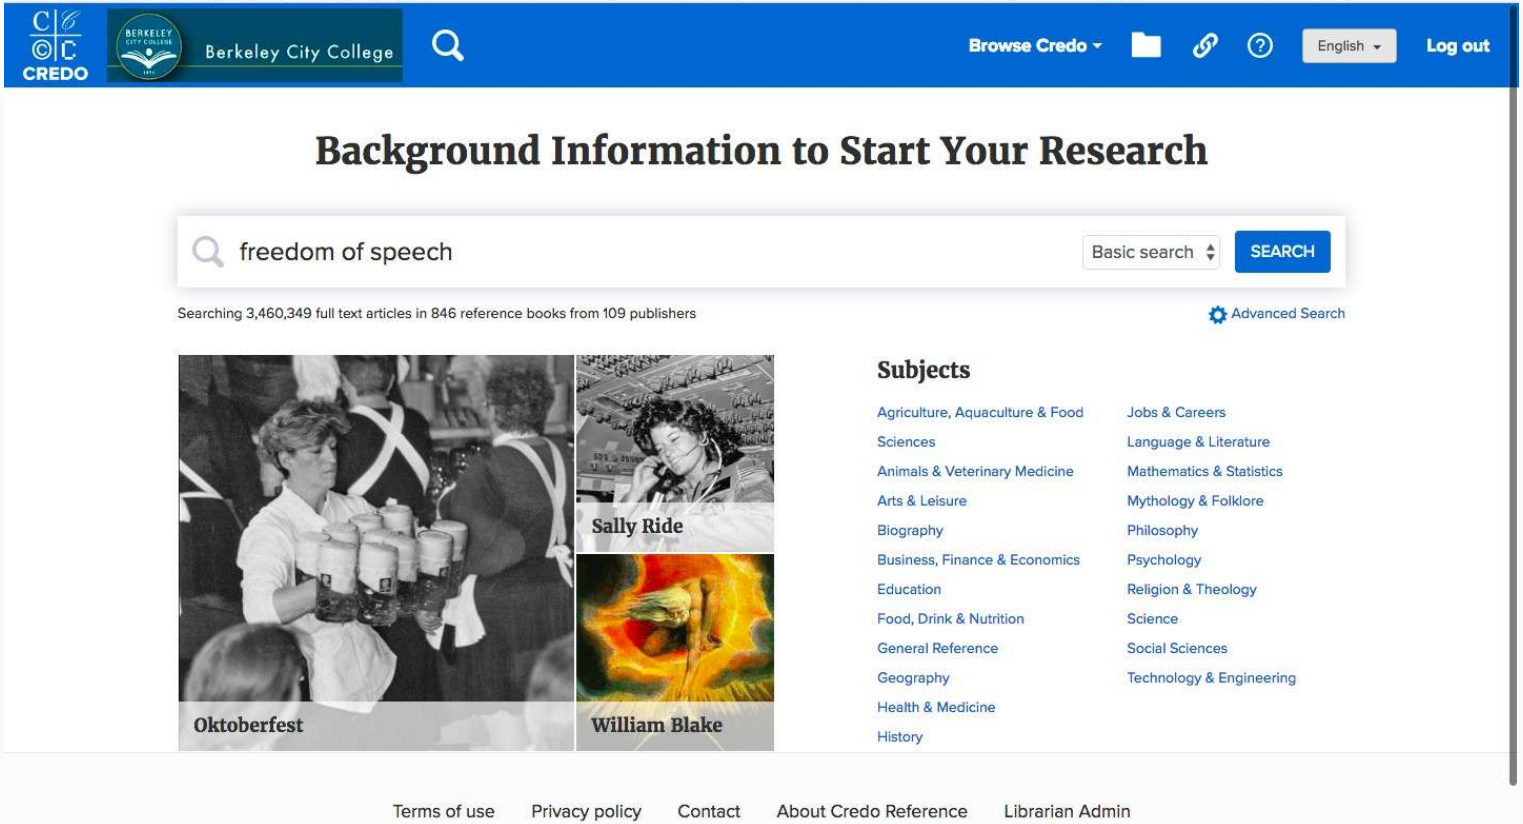
Example topic: How does outdoor learning affect preschool students' cognitive development?

Broad

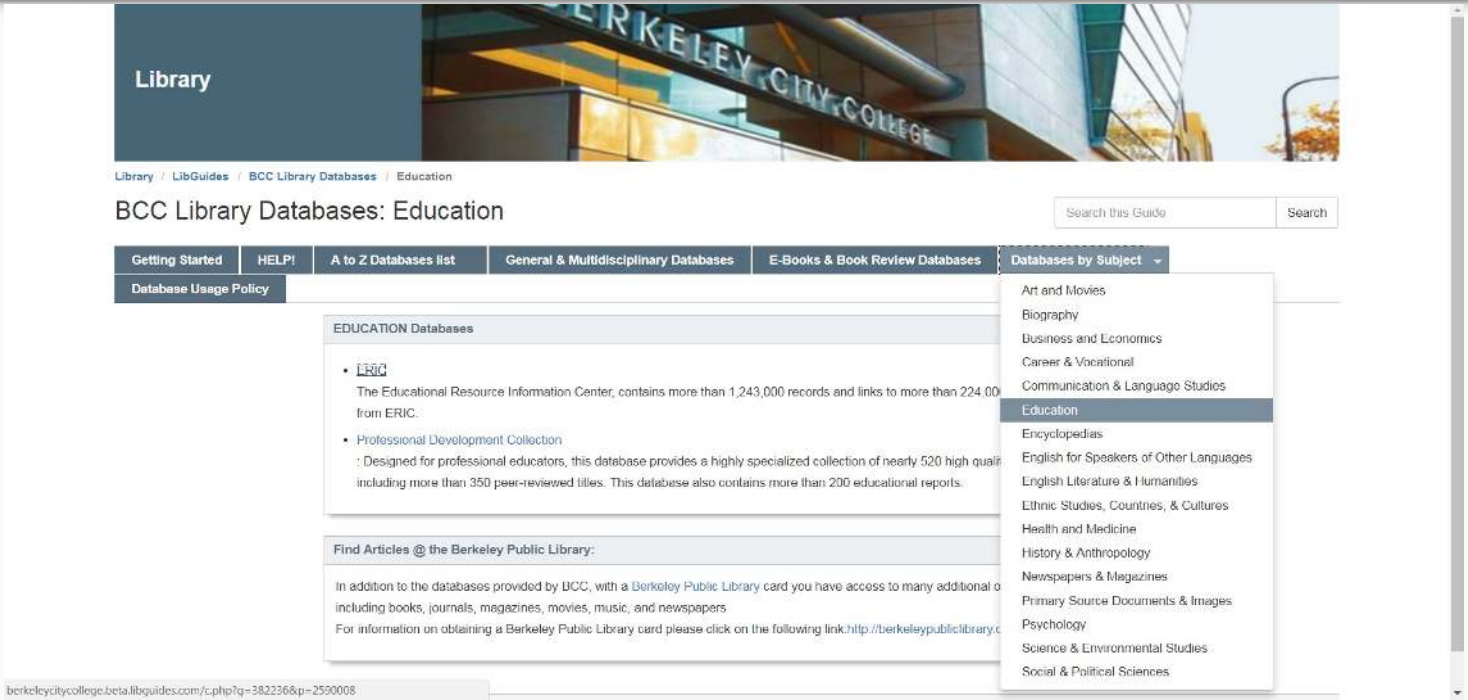
Narrow(name, gender, time period, subtype, location, title..)

Related

Credo Reference (Encyclopedia)



ERIC Database (Largest Education Database)



PRACTICE!

1) Research topic/question:_____
2) Come up with Keywords

Broad

Narrow(name, gender, time period, subtype, location, title..)

Related

What is Peer-Review?
